Profile

Results-driven Full-Stack Web Developer with over 4.5 years of hands-on experience in developing scalable and high-performance web applications. Specialized in Front-End Development using modern JavaScript frameworks such as React.js and Vue.js, with expertise in crafting intuitive, responsive, and maintainable user interfaces. Adept at writing clean, efficient code and optimizing performance to enhance user experience. Passionate about delivering seamless digital solutions through a balance of technical precision and creative design.

Professional Experience

Senior Software Engineer, *Food Market Hub (FMH Singapore)*   03/2024 – Present | Pune

Led the front-end development initiatives, mentoring junior developers and overseeing code reviews to ensure adherence to best practices and coding standards.

Architected complex state management workflows using Redux Toolkit (RTK) and Vue.js Composition API, improving component reusability and data flow efficiency.

Enhanced overall platform stability by proactively identifying and resolving critical production issues within tight deadlines.

Implemented advanced optimization strategies including lazy loading, memoization, and bundle size reduction, achieving noticeable improvements in load times and performance.

Collaborated closely with stakeholders to translate business requirements into robust technical implementations, resulting in improved customer satisfaction and user engagement metrics.

Software Engineer, *Food Market Hub (FMH Singapore)*   08/2021 – 03/2024 | Pune

Designed, developed, and maintained key product features for a modern Food and Business Management Platform, connecting suppliers and restaurants to streamline inventory control, minimize waste, and facilitate regional trade.

Built and optimized interactive, data-driven user interfaces using React.js, Redux, and Vue.js (Composition API).

Collaborated cross-functionally with product, design, and backend teams to deliver scalable and maintainable solutions aligned with business goals.

Utilized browser developer tools for real-time debugging, performance profiling, and troubleshooting to ensure seamless application functionality.

Contributed to refactoring legacy components, improving code maintainability and application speed by 25%.

Education

Bachelor of Engineering, *Bharat College Of Engineering*   2017 – 2020 | Mumbai

Skills

HTML CSS — MUI, TAILWIND CSS • **Javascript** • **React JS** • **Redux** • **Node JS** — Express JS • **Typescript** • **Next JS** • **Vue JS** • **MongoDB** • **SQL** • **Razorpay Payment Gateway** • **Git Vercel Netlify** • **CI / CD, Figma** • **AWS** — S3bucket, AWS Lambda • **Python**

Certificates

Meta Full Stack Developer
Trained in full-stack web development including HTML, CSS, JavaScript, React, Node.js, Express, MongoDB, Git, and Python basics. Completed a capstone full-stack project integrating API development with front-end UI.

Courses

Modern React Bootcamp (Front-End Web Development) & Web Development Bootcamp (Full Stack Web Development)   08/2024 – 01/2025
Modern React Bootcamp (Front-End Web Development) & Web Development Bootcamp (Full Stack Web Development) Acquired expertise in React.js, Redux, Redux Toolkit (RTK), and Tailwind CSS, as well as in REST API integration and database management using SQL and MongoDB for end-to-end application development.

PestoTech - Advanced JavaScript and MERN Stack Development   08/2022 – 03/2023 | Mumbai
Gained in-depth knowledge of advanced JavaScript concepts and developed full-featured MERN stack web applications, ensuring scalability and performance across different use cases.

Projects

Personal Portfolio ⧉   04/2025 – 07/2025
Built a responsive portfolio using React, JS, HTML, and Tailwind CSS with optimized components, reusable UI patterns, and mobile-first design.

Vidya Voult   02/2025 – 05/2025
Built a full-stack educational platform using React.js, Node.js, Express.js, and MongoDB, enabling course uploads and interactive learning. Implemented JWT authentication and responsive UI with Tailwind CSS for scalability and performance.

Inventory Management ⧉   07/2024 – 11/2024
Built a secure full-stack system for item and stock tracking using React, Node.js/Express, and MongoDB, with responsive UI and optimized CRUD workflows.

Employee Management System (EMS)   01/2024 – 02/2024
Developed a CRUD-based employee record management tool using React with controlled forms, reusable components, and responsive UI.
